Atkins is a leading provider of professional services. We are the largest engineering consultancy in the UK, the largest multi-disciplinary consultancy in Europe and the eighth largest design team in the world.⁽¹⁾

Our staff include engineers, architects, surveyors, cost and project managers, planners, management consultants, geologists and experts in information technology, telecommunications and environmental management.

The majority of our work is focused on the efficient operation of our clients' capital programmes. We:

Plan all aspects of our clients' projects, conducting studies covering technical, logistical, legal, environmental and financial considerations.

Design systems, processes, buildings and civil structures. We develop cutting edge solutions and combine them with tried and tested technologies to achieve an optimal result.

Enable complex programmes, delivering one-off projects and managing ongoing processes to reduce timescales, cost and disruption, allowing our clients to focus on their core operations.
